

CURRICULUM VITAE

Motivated and adaptable Full Stack Developer Trainee with a solid foundation in end-to-end web development, gained through a rigorous 12-month program with IT Career Switch. Proficient in modern web technologies including HTML, CSS, JavaScript, PHP, React, and MySQL, with hands-on experience building dynamic and responsive applications using version control and CI tools such as GitHub. Known for strong attention to detail and an analytical mindset, demonstrated through complex project implementations like a Company Directory CRUD application and a Gazetteer Single Page App integrating multiple APIs.

Bringing several years of professional experience in customer service, administration, and recruitment, I offer a well-rounded skill set that includes excellent communication, organisational ability, and cross-functional teamwork. With a master's in international security and a background in criminology, I possess a unique perspective on data integrity, user security, and user-focused development. Bilingual in Polish and confident in high-pressure environments, I am now seeking a junior developer role where I can contribute technically while continuing to grow professionally in a collaborative and fast-paced setting.

CODING TRAINEESHIP

IT Career Switch Ltd
Coding Traineeship – Full Stack Developer
1-year program

During the traineeship, I had to demonstrate a very competent level of the following programming languages and technical skills:

- HTML5, CSS3, JavaScript
- PHP, SQL, MySQL, React, jQuery, C#
- Python, Node.js, Bootstrap, Java, JSON
- Command line Git, GitHub
- Remote API access

ADDITIONAL TECHNOLOGIES:

- Redux, Express.js, PostgreSQL, MariaDB, CRUD, MySQL, AJAX, Leaflet, cURL, JSON

DEVELOPMENT EXPERIENCE:

Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio:
<https://bartoszmogilan.co.uk/>

Portfolio Project #1: "Gazetteer"

Develop a map-based application in HTML, CSS, JavaScript (jQuery) and Bootstrap presenting geographical and demographic data from JSON returned by PHP modules that query third-party APIs such as GeoNames and OpenWeather.

Portfolio Project #2: “Company Directory”

Full project cycle: Formal proposal followed by the development of a company personnel database application using Bootstrap, JavaScript (jQuery), PHP and MySQL. Sign off obtained after demonstrating that all of the required functionality was present and working as intended through the preparation of a formal test script.

CAREER HISTORY:
